Alexander Forbes Balanced Growth Satrix Actively Managed ETF

Minimum Disclosure Document
November 2026

INVESTMENT OBJECTIVE

The Alexander Forbes Balanced Growth Satrix Actively Managed ETF aims to provide investors with long-term capital growth through active management across a diversified portfolio of local and global asset classes. The fund seeks to balance growth opportunities with prudent risk management and may invest across equities, fixed income, property, cash, and other approved instruments in accordance with its investment mandate. The portfolio is designed for investors seeking a medium- to long-term investment horizon and who are comfortable with moderate fluctuations in market value.

BENCHMARK

The benchmark is the Peer group average of ASISA South African - Multi Asset - High Equity category.

DISCLAIMER

All reasonable steps have been taken to ensure the information on this MDD is accurate and complete. The information does not constitute financial advice as contemplated in terms of the Financial Advisory and Intermediary Services Act. Use or rely on this information at your own risk.

Satrix Managers (RF) (Pty) Ltd is a registered and approved Manager in Collective Investment Schemes in Securities. Collective investment schemes are generally medium- to long-term investments. Past performance is not necessarily a guide to future performance, and the value of investments / units may go up or down. A schedule of fees and charges, and maximum commissions are available on the Minimum Disclosure Document or upon request from the Manager. Collective investments are traded at ruling prices and can engage in borrowing and scrip lending. Should the respective portfolio engage in scrip lending, the utility percentage and related counterparties can be viewed on the AMETF Minimum Disclosure Document. Performance is based on NAV-to-NAV calculations with income reinvestments done on the ex-div date. Performance is calculated for the portfolio, and the individual investor performance may differ as a result of initial fees, actual investment date, date of reinvestment and dividend withholding tax. With Unit Trusts and AMETFs, investors hold a participatory interest representing a proportionate share of the underlying investments of the fund. In the case of Unit Trusts, this interest is held through participatory units issued by the fund, whereas for AMETFs it comprises a listed security traded on a stock exchange. The Manager does not provide any guarantee either with respect to the capital or the return of a portfolio. The manager has the right to close the portfolio to new investors in order to manager it more efficiently in accordance with its mandate. International investments or investments in foreign securities could be accompanied by additional risks such as potential constraints on liquidity and repatriation of funds, macroeconomic risk, political risk, foreign exchange risk, tax risk, settlement risk as well as potential limitations on the availability of market information. Satrix retains full legal responsibility for the co-named portfolios.

AMETFs are registered as a Collective Investment and can be traded by any stockbroker on the stock exchange, LISP platforms or via online trading platforms. AMETFs may incur additional costs due to it being listed on the JSE.

AMETFs are actively traded (it does not track an index) on a discretionary basis by a Portfolio Manager, who adjusts the AMETF holdings and asset allocation with the aim to outperform the benchmark.

This AMETF qualifies as a tax-free investment according to section 12T of the Income Tax Act, with effect from 1 March 2015. South African individuals qualify for the associated tax benefits namely no tax on dividends, income or capital gains whilst still enjoying all the benefits of an ETF. Note contributions to tax free investments are limited to R46 000 per tax year, with a lifetime limit of R500 000. Amounts invested in excess of these permissible thresholds are subject to tax penalties.
