Portfolio description

Designed to achieve capital preservation over the medium term by investing in a mix of collective investment vehicles across a variety of asset classes, this Class Fund follows an active multi-manager approach to provide a high degree of diversification in terms of investment styles and strategies and is suitable for investors who are conservative in nature.

The Class Fund will typically have a broad, core exposure to government, corporate and specialist bond funds, together with a low to medium weighting to equity funds, providing investors with a lower risk strategy. It will have a core exposure to Sterling, however it is internationally diversified with access to investment opportunities globally as well as in the UK.

Total expense ratio and Transaction cost breakdown¹

Period (Annualised, rolling one-year period): to 31 Mar 2026

Management Fee	0.55%
Administration & Trustee Fee	0.10%
Underlying Expenses	0.33%
Expenses	0.01%
Total Expense Ratio (TER)	0.99%
Transaction Costs (TC)	0.00%
Total Investment Charges (TER + TC)	0.99%

Fee disclaimer

1. Total Expense Ratio (TER): The percentage of the value of the portfolio that was incurred as expenses relating to the administration (charges, levies and fees) of the portfolio. TER is calculated over a rolling three-year period (or since inception, where applicable), to the most recent calendar month. A higher TER does not necessarily imply a poor return, nor does a low TER imply a good return. The current TER may not necessarily be an accurate indication of future TERs.
2. Transaction Cost (TC): The percentage of the value of the portfolio that was incurred as costs relating to the buying and selling of the assets underlying the portfolio. Transaction costs are a necessary cost in administering the Fund and impacts returns. It should not be considered in isolation as returns may be impacted by many other factors over time, including market returns, the type of financial product, the investment decisions of the investment manager and the TER. Calculations are based on actual data where possible and best estimates where actual data is not available.
3. Total Investment Charge (TIC): The percentage of the portfolio incurred as costs relating to the investment of the portfolio. It is the sum of the TER and TC.
4. A fund of funds is a portfolio that invests in portfolios of collective investment schemes that levy their own charges, which could result in a higher fee structure for the fund of funds.
5. A feeder fund is a portfolio that invests in a single portfolio of a collective investment scheme, which levies its own charges and which could result in a higher fee structure for the feeder fund.

Notes

- This Class Fund was established on 15th January 2015. The Launch Date referenced in this document identifies the first application of investor funds to this B-1 series of units in this Class Fund.
- Annualised returns are period returns re-scaled to a period of 1 year. This allows investors to compare returns of different assets that they have owned for different lengths of time. All period returns greater than 1 year have been annualised. Returns for periods less than 1 year have not been annualised.
- Benchmark data is updated retrospectively to include performance data provided by composite managers not available at the time of original publication. This is the normal market convention for using benchmark data from this source.

1. Full details of all fees, charges, and expenses, and how they may be applied, are set out in the Prospectus and the schedules thereof.
2. These charges and expenses do not include any telegraphic transfer and banking charges that may be incurred on the purchase or redemption of units.
3. These charges will reduce the investment value.
4. All the above fees are current fees and may be subject to change as detailed in the Prospectus.
5. Any of the fees that the Manager is entitled to receive and retain pursuant to the Prospectus or any schedule thereof (including any management fee, trustee and administration fee or service fee) may, subject to the class of units held, be payable either:
 - a) out of each class fund; or
 - b) by way of a redemption of such investor's units as are required to meet such fees
6. Subject to any applicable law, the Manager may rebate all or any part of its fees to financial intermediaries.
7. There may be differences in totals due to rounding.
8. The source in respect of all portfolio performance, underlying returns, cumulative returns and risk statistics is Alexander Forbes Investments.

Disclaimer

This document is for information purposes only and it does not form part of the Alexander Forbes Investments Global Fund (the "Fund") Prospectus, and does not constitute an invitation to subscribe for Units in the Fund. The matters set out herein should not be relied upon for the purposes of making an investment in the Fund. The Fund is an open-ended unit trust, which was established in Jersey on 28 April 1997 as an unclassified fund. The Fund is an unregulated collective investment scheme in the UK and its promotion in the UK is restricted by the Financial Services Act 1986. Unclassified funds are not covered by the Compensation for Investors (Jersey) Regulations 1988. Collective investment schemes (unit trusts) are generally medium- to long-term investments. There is no assurance that the investment objectives of the Fund will actually be achieved. The value of participatory interests (units) may go down as well as up and past investment returns are not necessarily indicative of future returns. The performance figures quoted are from Alexander Forbes Investments Limited, and are for a lump sum investment, using NAV-NAV prices with income distributions reinvested. The portfolio performance is calculated on a NAV to NAV basis and does not take any initial fees into account. Income is reinvested on the ex-dividend date. Actual investment performance will differ based on the initial fees applicable, the actual investment date and the date of reinvestment of income. Past performance is not necessarily an indication of future performance. Investors are reminded that an investment in a currency other than their own may expose them to a foreign exchange risk. If an investment in the Fund is redeemed at an early stage, the preliminary charge paid upon purchase of Units may exceed any return on the investment in which case investors will not receive the full amount of their original investment. Unit trusts are traded at ruling prices and can engage in borrowing and securities lending. Forward pricing is used. Commission and incentives may be paid and, if so, would be included in the overall costs. The unit trust may borrow up to 10% of the net asset value of the Class Fund to bridge insufficient liquidity. The unit trusts are valued at the end of the day and at their final closing prices. Unitholders may agree to pay additional ongoing advice fees to their appointed financial planners. Completed Application Forms and notification of deposits must be received before 11:00am Jersey time for the investment to be executed on that day. If received after the applicable cut-off time, the money will be invested at the subscription price of the following day. The 11:00am Jersey cut-off time also applies to redemptions and switches. The Class Funds that are Feeder Funds only invest in participatory interests of a single underlying collective investment scheme portfolio. The Class Funds that are Fund of Funds only invest in participatory interests of more than one underlying collective investment scheme portfolio, which levy their own charges, which could result in a higher fee structure. The Class Funds are accumulation funds and do not distribute income. At the time of going to press the above information was correct. However, the information is subject to change. A Prospectus is available upon request from Alexander Forbes Investments Jersey Limited (the "Manager"). The interests of directors and management are available on request from the Manager. The registered office of the Manager is 2-6 Church Street, St Helier, Jersey, Channel Islands. The Trustee is BNP Paribas Depository Services (Jersey) Limited, IFC1, The Esplanade, St Helier, Jersey, Channel Islands (the "Trustee"). The Manager and the Trustee are regulated by the Jersey Financial Services Commission for the conduct of fund services business. Alexander Forbes Investments Limited is a member of the Association for Savings and Investment South Africa (ASISA).
